

Nebraska's Nursing Homes

The *Advancing Excellence in America's Nursing Homes* campaign is a coalition-based initiative seeking excellence in the quality of life and quality of care for the more than 1.5 million American nursing home residents by enhancing choice, strengthening the workforce and improving clinical outcomes. The campaign builds on the success of other quality initiatives like Quality First, the Nursing Home Quality Initiative (NHQI) and the culture change movement. The following are the participating nursing homes in Nebraska.
