

## **Roster of Living Nebraskans Age 107 or Above**

Updated March 3, 2010

Relatives, health care professionals, and others are asked to notify the Nebraska Health Care Association (NHCA) when someone with Nebraska connections reaches age 107 for placement of name, birthday, and county of residence on the roster. Since age verification may be necessary via census records involving the centenarian's youth or early adult years, relatives may assist by providing names of parents and location of centenarian during 1900 or 1920.

Please notify the NHCA when the persons on the living roster become deceased so the information may be kept current. Nebraska Health Care Association, 3900 Northwest 12<sup>th</sup> Street, Suite 100, Lincoln, Nebraska 68521.

### **Roster of Living Nebraskans Age 107 or Above**
