

ICD-9-CM Expert for Home Health Services, Nursing Facilities and Hospices, Volumes 1, 2, & 3—2009

Published by Ingenix

INGENIX®

Is your facility being reimbursed accurately and to the fullest extent allowed? If your facility is using outdated ICD-9 codes, you are probably not being reimbursed fully. Some activities may not be reimbursed at all. Without correct coding, a facility may be paid at a lesser amount or not at all.

The ICD-9 manual is updated annually. Some of the features of this Ingenix book include:

- **Color-Coded Symbols and Alerts:** Quickly identify critical coding and reimbursement issues including V code sequencing restrictions and additional digit required symbols.
- **HIPAA Code Set Compliance:** Official code set, complete coding guidelines, *AHA's Coding Clinic for ICD-9-CM* References, summary of changes for 2008, and the 10 steps to correct coding all help to improve coding accuracy, work efficiency, and HIPAA compliance.
- **Home Health Agencies:** Excerpts from the Home Health Prospective Payment System, Coverage Issues and alerts identifying diagnoses that group to the clinical dimension are included.
- **Skilled Nursing Facility:** Description of the RUG-III system, coding guidelines for long term care and color coding alerts for diagnoses and procedures that affect case mix are standard.
- **Hospice:** Alerts for non-cancer diagnosis that qualify for coverage along with coverage criteria.
- **Exclusive—Email Alerts for Special Reports:** Stay up-to-date with important information posted on the Ingenix website.
