Education Sessions

**NF NNHQIC
CMS RoP Phase 3: Are You Ready?
Crystal 3**

Speaker: Cat Selman, BS, Owner, The Cat Selman Company, Vonore, Tennessee

Phase 3 of the CMS Requirements of Participation goes into effect November 28, 2019. Cat will address Phase 3 requirements that may receive the most survey focus and provide recommendations regarding systemic process and staff training that should be in place PRIOR to the effective date. She will address person-centered care planning, supportive documentation for the care plan and PDPM concerns, trauma-informed care, and sufficient and competent staffing, as well as staff training. (She will not be addressing PDPM coding.) You have several months to get everything "in place" for Phase 3. Will you be ready?
Audience: All in Nursing Facilities
6 Credit Hours

**AL NF
A New Perspective and Approach that Equips Nursing Staff, Limits Liability, and Saves Lives
Crystal 4**

Speaker: Judy Salisbury, EMT-IV, Founder/President, Logos Presentations, Woodland, Washington

From the perspective of nursing and EMS, discover missing elements in current training and how to fill the gap. Participants will learn rapid assessments that fall within nursing's scope of practice and how to interact with 9-1-1/EMS more effectively. Included is a

commonsense discussion on emotional trauma, which can be especially hard for health care workers and residents who suffer in silence. Learn intuitive elements to emotional trauma: definition, recognition, and options.

Audience: All in Assisted Living Facilities and Nursing Facilities
6 Credit Hours

**AL NF LPN NNHQIC
Achieving Compliance in Behavioral Health: F740-F744
Diamond 5-10**

Speaker: Barbara Speedling, Quality of Life Specialist, Innovations for Quality Living, Bayside, New York

The new federal regulations for behavioral health challenge long-term care facilities to ensure they are fully prepared to care for residents with complex psychosocial needs. Beyond differentiating between dementia and psychiatric illness or addictions, the facility staff must have a working knowledge of the interventions and services necessary to quality care for a rapidly changing population. This session offers insight into staff education and training, assessment and care planning, service development, and therapeutic activity interventions to address a broad range of behavioral health needs.

Audience: All in Assisted Living Facilities and Nursing Facilities, and Licensed Practical Nurses
6 Credit Hours

10:30 a.m. to 10:45 a.m.
