INSTRUCTOR

Jessica Broeker, RN, BSN
Tracy McHugh, RN, BSN, RAC-CT

PROGRAM OBJECTIVES

At the completion of the program, participants will be able to:

1. Recognize the basic competencies needed in order to safely provide another person with his or her medications in accordance with the Nebraska Medication Aide Act.
2. Identify specific drug families, actions, side effects, and use to treat or prevent disease.
3. Recognize the responsibilities of the medication aide in relation to additional activities such as PRN medications; providing medications by vaginal, rectal, tube, or inhaled routes; and providing insulin by injection.

The first eight (8) hours of class are mandatory attendance to continue with the class. All attendance is required or an incomplete is given until time and content is made up.

TRAINING SCHEDULE START DATE: July 12, 2021

| | |

PROGRAM CONTENT

This program is designed to prepare the participant to meet the requirements of the Medication Aide Act and to assume the role and responsibilities of a medication aide. The program is intended for the medication aide in an assisted living facility, nursing facility, or intermediate care facility for people with intellectual disabilities. It can be used to train medication aides in other settings.

COLLEGE CREDIT

4.0 quarter credits will be awarded upon successful completion of the Medication Aide program. Training may be taken as credit or non-credit. Credit only if high school transcript is submitted within 30 days of completing the course. See the Nebraska Health Care Learning Center Education Catalog for credit requirements at nebraskanurseaide.org.
